Scissor

## How to read this pattern:

The pattern is done in Single Crochet. You will Chain 1 every time you finish a row.

Example: Row 1: Color Green/ 72

This means Single Crochet 72 stitches in color Green.

## Note:

Please keep your yarn organized. Check off as you go to keep track of what you've done. This pattern starts from the bottom.

## How to Change colors?

When you get to the last stitch before changing colors, leave that stitch undone (meaning there should be two loops remaining on the hook). Attach the new color, adjust it so it's not too loopy it should be the same size as your previous loops, place the hook down, cut the previous color (leave a 3-4inch tail).

When you change color and the knot is on the right side of the project just turn your work around, attach your hook and grab and pull lightly to the back of your work.

All the tails will be covered up when you attach a fleece or the fabric of your choice when you complete this project. If you want to weave in your tails or carry your tails you can.

If you have another way of changing colors you can use that method too. If you want to find other ways to change colors YouTube has great tutorials.

Happy Crocheting!
